REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant invention claims an article having nanoscale patterning. The claimed article has a specific structure and composition. The closest prior art references related to the claimed invention are Chou'580,'905,742 and '238 (applicant's patents), Deckman'695 and Dunsmuir'476. The closest prior art references teach that it is known in the art to make and use articles having patterns on a substrates. However, the closest prior art does not teach or fairly suggest the instant invention wherein the article has the claimed structural elements and composition. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leszek B. Kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
